# RIVER RUN 84, THE YEAR OF CHANGE

By Doug Alred

**T**hrough its first six years, River Run had been known as a beautiful course which took in all parts of the city. The course was not that fast so if you wanted to get a good 15K time go to Gasparilla. The Hart Bridge was just too tough to allow you to run your best.

Maybe it wasn't just the bridge, but where the bridge was located on the course. In 1983 the lead runners had reached the base of the bridge in excellent times only to lose it in the last 5K. At first look it seemed it must be the bridge, but after a lot of analysis the real reason was the mile and half run to the finish after the hill. All of the strength would be sapped from their legs and even though it was completely flat, the last mile and half would seem uphill. How could the bridge be used to make the course a fast one? The climb up was only a half mile while the run down was about a mile. If runners could get to the base of the bridge in record time, why not put the finish at the other side. It would make the course faster. It would have to. All the runners would have to do would be to struggle up the bridge and then blow it out to the finish line.

The course change was made. The finish was moved to the Gator Bowl. The city would be celebrating River Day in conjunction with The Race and they planned to use the newly completed Metropolitan Park for their activities. They wanted the race to have the awards ceremony at the park. They would provide the stage and the large speakers necessary to make it work. So the change seemed well worth it. All that remained was to see if the course would prove to be faster.

Saturday morning came and it

looked like the weather might spoil all the hopes for fast times. It was going to be a hot one. The right runners were on the starting line to make the race fast, but would the heat prevent them from doing their best? The dual start would get all the runners out much quicker than in the past so maybe this could still be a PR day. When the cannon sent the lead runners off, the first test was to see if the new start would get the last runners across the starting line faster than in the past. It worked. The last runner crossed the Duval line in one minute and forty seconds. About a minute faster than in 1983. Now would the course prove to be faster for the winner?

At seven miles, the lead pack was running a 42:56 pace. By no means a world record, but fast enough to break the course record by 37 seconds. Considering the heat, it would be impressive. The next mile would be the big test. The eight-mile mark is about two hundred yards from the top of the bridge so whatever the pace is at that point will probably be slower than the actual finishing time. If the six runners in the pack can stay together till eight it could be real fast. The pack did stay together until the top of the bridge and they had passed through the eight-mile mark at 43:18 pace. That would still be a course record. The next mile is all down hill, so just how fast will they run?

Just over the top, Gidamis Shahanga proved that he was an excellent downhill runner. He quickly moved away from Nzau and all that remained between him and victory was Zack Barie. Barie had just set the World Record for the 10K two weeks earlier at Continental Homes, so Gidamis had

to put some distance on him before the bottom of the bridge and the quarter mile stretch run down Duval Street to the finish. And that's just what he did. The pace down the hill approached four minutes flat. Barie started to fall back. Joseph Nzau using his past experience on the bridge started to close in on Barie. By the time Shahanga turned onto Duval Street it was obvious he would win. But, just how fast would he run? His legs were now lifting and his arms were working as hard as his legs, 42:54!!! A new course record by 39 seconds. Nzau and Barie were neck and neck. It would be a close one for second. Nzau turned on his rockets and finished in 43:04 with Barie right behind in 43:07. Both well under the old course record. As it turned out Mark Stickley & Simeon Kigen also broke the old record with 43:19 and 43:29 timings.

The women didn't break the record. Midde Hamrin led from start to finish and breezed her way to a 50:12 victory. Julie Brown and Sylvia Rugger battled to the finish line with Julie passing Sylvia on Duval Street to take second place in 50:56 and Sylvia finish in 51:00.

The changes had worked as runner after runner set PRs, and Metropolitan Park proved to be an excellent place for the awards ceremony. Another change was the t-shirts only going to the finishers of the race. The distribution in Wolfson Park seemed to go smoothly. There were no long lines and most runners seemed to get the correct size. So the year of change has been good for River Run. New excitement, new anticipations. What will next year have in store? Maybe cooler weather and just maybe a new world record.

## TOP 10% AWARDS

The top 10% awards ceremony was held race night at the Sheraton St. Johns Place. A lot of the plaques were not picked up, therefore if your name appears in the top ten percent of your age-group (the shaded area) you may claim your award by either mailing your award and your current address to River Run 15,000, 1545 University Blvd., West, Jacksonville, FL 32207, or by going to 1st Place Sports in the Lakewood Shopping Center in Jacksonville.

# From The Race Director

Well, here they are! The long awaited results. It's sad it took six months to get them to you, but we had a problem with a local magazine who was supposed to print the results in return for the rights to all the advertising. As it turned out, the magazine was unable to live up to their end of the bargain, therefore, RIVER RUN had to bear the cost and print the results.

The results will indicate your time, place overall, place within your sex and place in your age-group. The shaded areas of each age-group indicate the top ten percent. If you haven't received your award for being in the top ten percent, you can send \$2.00 to us and your award will be returned in a few days.

As of this late date, it seems River Run 15,000 was one of the most competitive road races of the year. Plus, our winning time was as fast as any 15K in the country. If we get cooler weather next year, maybe we will get a world record.

I would like to thank our sponsors for making it all possible; Volkswagen of America, Memorial Medical Center and Barnett Banks of Jacksonville. Barnett will be back again in 1985 as our top level sponsor. They are very dedicated to River Run and have worked it out with the city to build permanent mile markers along the course. Plans call for the markers to be in place by next year's race. I am in the process of looking for more sponsors for next year's race and hope to have all the spots filled by late November.

A special thanks to all the people who volunteered their time to work the race. It takes a lot of workers to pull the race off and without them it just would not be possible.

RIVER RUN 85 will be March 9th at 9:00 A.M. at the Gator Bowl. The course will be the same as last year with a dual start. The entry fee will be \$10.00. An entry form for next year's race is contained in this results book. If

you use this entry, you can register for \$8.00 as long as we receive the entry before December 1, 1984.

Until next March, keep up the good running.
